Good Karma from Our Customers

“The job was completed and I’m a very, very happy customer”

“I just want to say that Raj is a wonderful person. He stayed with me to the end on trying to fix my computer. It took a couple of days but he was there for me. The job was completed and I’m a very very happy customer. He has a great personality. A pleasure to do business with you. Have a great person there. Once again thank you.”

“He stayed with me the whole time until the issues were fixed.”

“I am almost positive that I would not have received that kind of assistance or service with anyone else.”

“He was excellent at explaining the steps with such good humour that I almost wished to have some more problems to be sorted!”

I cannot praise Vijay enough for his patient help in solving my "file association" problem. He was excellent at explaining the steps to be taken to solve the difficulty and with such good humour that I almost wished to have some more problems to be sorted! To follow up the case with a resume of the solution is truly superb. I will not hesitate to recommend iYogi to friends. Thank you again for everything and keep up the good work. Good karma to all at iYogi.”
